WEBINAR: Electric Vehicles Market in India
Tuesday, 7th May 2024 – 10 AM (CET)

Switzerland Global Enterprise and the Swiss Business Hub India are organizing a webinar on the Electric Vehicles Market in India.

In this webinar, you will learn about:

- India's electric vehicles market
- Key business opportunities for Swiss and Liechtenstein companies in India
- Swiss Electric Vehicles Mission to India from 15-19 September 2024

Key highlights of India's electric vehicles market:

- The government of India has set a target of 30% electric vehicles on roads by 2030.
- EVs accounted for nearly 5% of total vehicle sales from October 2022 - September 2023; this could reach more than 40% penetration by 2030
- By 2030, India's EV market size is expected to be more than CHF100 bn.
- India will need more than one million charging stations by 2030 to support the increased usage of electric vehicles.
- India's FAME (Faster Adoption and Manufacturing of Hybrid and Electric Vehicles) programme provides subsidies for EVs, thereby accelerating consumer adoption.

Schedule

10:00: Welcome and introduction to S-GE
10:05: Welcome to Swiss Business Hub India
10:10: Electric Vehicles in India: presentation of key findings
10:25: Swiss Electric Vehicles Mission to India 2024
